IN THE UNITED STATES PATENT AND TRADEMARK OFFICE BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD

Notice of Opposition

Notice is hereby given that the following party opposes registration of the indicated application.

Opposer Information

Name	Continental Aktiengesellschaft
Granted to Date of previous extension	10/08/2008
Address	Vahrenwalder Strasse 9 Hannover, 30165 GERMANY

Correspondence information	Rex A. Donnelly Attorney of Record RatnerPrestia P.O. Box 1596 1007 Orange St., Suite 1100 Wilmington, DE 19899 UNITED STATES tmde@ratnerprestia.com, radonnelly@ratnerprestia.com,
	jwmcglynn@ratnerprestia.com Phone:302-778-2500

Applicant Information

Application No	78781912	Publication date	06/10/2008
Opposition Filing Date	10/08/2008	Opposition Period Ends	10/08/2008
International Registration No.	NONE	International Registration Date	NONE
Applicant	ARIETE PRODUCTION Avenue des Pins d'Alep, Parc Ales, 30100 FRANCE	Technologiq ue Pisto	e Oasis, BP.69;

Goods/Services Affected by Opposition

Class 007.

All goods and services in the class are opposed, namely: Parts for internal combustion engines for motorcycles, namely, engine cylinders and cylinder heads, pistons, exhaust pipes, engine mufflers, connecting rods, carburetors, automatic and mechanical centrifugal speed regulators, electronic ignitions for motorcycles, motorcycle engine timing components, namely, cam sprockets and chains; electronic ignitions for motorcycle engines

Class 012. First Use: 2005/02/00 First Use In Commerce: 2005/02/00

All goods and services in the class are opposed, namely: Land vehicles, namely, motorcycles and structural parts therefor, motorcycle engines; motorcycle frames, and motorcycle parts and accessories, namely, shock absorbing springs, handle bar throttles, clutches, brakes, brake discs, shock absorbers, suspension springs, fork bearings and races, gearboxes, gear shifts, handle bars and handle bar grips, fuel tanks and caps for fuel tanks, reservoir fuel tanks, fenders, saddles and saddle covers, motorcycle plastic trim components and fasteners, namely, plastic extruded decorative and protective trim, directional signals for motorcycles, rear view mirrors for motorcycles, horns for motorcycles, anti-theft alarms for motorcycles, luggage nets for motorcycles, motorcycle windscreens, kickstands for motorcycles, fitted and semi-fitted covers for motorcycles

Grounds for Opposition

Priority and likelihood of confusion	Trademark Act section 2(d)
Torres v. Cantine Torresella S.r.l.Fraud	808 F.2d 46, 1 USPQ2d 1483 (Fed. Cir. 1986)

Continental Aktiengesellschaft	
Opposer,	
V.	Opposition No.
Ariete Production	
Applicant.	
NOTIC	E OF OPPOSITION
	elieves that it will be damaged by the registration of U.S. MOTORS & Design and hereby opposes the same. As ally alleges as follows:
1. Opposer is a German company 30165 Hannover, Germany.	y having a place of business at Vahrenwalder Strasse 9,

Opposer's earliest U.S. registration for CONTI (U.S. Reg. No. 652057) issued in 1957, relying upon two

Opposer is currently one of the top five automotive suppliers in the world.

first use in commerce in 2004, Opposer, its predecessors-in-interest, and affiliates have been providing tires, belts and other motor vehicle parts in interstate commerce in the United States under registered and

common law marks comprised of and beginning with CONTI ("CONTI Marks"). Opposer began its worldwide business in Hannover, Germany in 1871 as the Continental-Caoutchouc-und Gutta-Percha

Compagnie. In fact, Opposer was the first to manufacture pneumatic tires for bicycles in 1892.

German registrations claiming registration dates of 1912 and 1935.

For at least several decades prior to Ariete Production's ("Applicant") claimed date of

4. Opposer owns registrations and applications for numerous of the CONTI Marks with the United States Patent and Trademark Office ("USPTO"). Opposer's registrations include, but are not limited to:

Mark	U.S. Reg.	Goods
CONTI	652057	Transmission belts, conveyor belts, inflated and solid tires made in whole or in part of rubber for bicycles, passenger cars, trucks, tractors, lorries, and motor cars, rubber hose, fabric-reinforced rubber hose, and metal-reinforced rubber hose - Classes 7, 12, 17
CONTI-V	2964324	Belts for machines, namely, driving belts, transmission belts, V-belts, ribbed V-belts, variable speed gear belts, toothed belts, synchronous belts, studded belts, twintooth synchronous drive belts, lifting belts, conveying belts - Cl. 7 Belts for land vehicles, namely, driving belts, transmission belts, V-belt, toothed belts - Cl. 12
Conti-SF	2936600	Belts for machines; fan belts for motors and engines - Cl. 7 Belts for land vehicle transmissions, and land vehicle parts, namely drive belts - Cl. 12
CONTI SYNCHROBELT	2840812	Belts for machines; fan belts for motors and engines - Cl. 7 Belts for land vehicle transmissions, and land vehicle parts, namely drive belts - Cl. 12
Conti-V MULTIRIB	2780178	Belts for machines; fan belts for motors and engines - Cl. 7 Belts for land vehicle transmissions, and land vehicle parts, namely drive belts - Cl. 12

CONTITECH	1777543	Rubber based cements and adhesives for repairing conveyor belts - Cl. 1
		Airsprings, for machinery in material handling technology, industrial washing machines and presses; machine parts; namely, impact mounts, power unit bearings - Cl. 7
,		Drive belts for engines of land vehicles; parts for land vehicles; namely, airsprings for use in suspension systems, airsprings for use in drivers' seats and cabs,, diaphragms, weatherstrips - Cl. 12
	-	printing blankets not of textile material; cloth for bookbinding - Cl. 16
		General machinery parts; namely, diaphragms, weatherstrips,, all made of various elastomers; hoses made of rubber or synthetic polymers for conveying solids, liquids or gases - Cl. 17
O ntinental	622300	Pneumatic tires and solid rubber tires for bicycles, passenger cars, trucks, tractors, lorries, wheel barrows, and motor cars - Cl. 7 & 12

Conti contact	1152321	Pneumatic tires for motor vehicles - Cl. 12
ContiESCContact	3481033	Vehicle tires; inner tubes for vehicle tires; solid rubber tires - Cl. 12

The registrations are in full force and effect and at least U.S. Registration Nos. 1152321, 2406103, 2490201, 2594967 and 2601767 are incontestable within the meaning of § 15 of the Lanham Act. Copies of the Certificates of Registration, Trademark Applications and Registrations Retrieval records, and USPTO Assignment records are attached as Appendix A.

- 5. In addition to the aforementioned U.S. Registrations, Opposer and its subsidiaries own numerous registrations for the CONTI Marks throughout the world.
- 6. Opposer and its subsidiaries are frequently referred to by consumers as "Conti" and, for example, its tires, are frequently referred to as "Conti tires." See Appendix B.
- 7. Opposer has owned the domain name **<conti-online.com>** since at least February 2, 2000, and has operated its primary website from that address since at least 2001.
- 8. Opposer has also owned the domain name **<conti-moto.com>** since at least October 19, 2004. Entering the domain into an Internet browser directs the user to the portion of the **<conti-** online.com> website dedicated to Opposer's motorcycle tires.
- 9. Opposer has distributed motorcycle tires in the United States through distributor Continental Tire North America, Inc., located in Johnstown, Ohio, since well before Applicant's alleged date of first use of February 2005. The website accessible at <conti-online.com> has numerous web pages dedicated to Conti's motorcycle tire offerings, including its ContiSportAttackTM, ContiRaceAttackTM, ContiForceTM, ContiRoadAttackTM, ContiMotionTM, ContiTwistTM, ContiGO!TM, ContiTrailAttackTM, and ContiEscape brands for motorcycles, and its ContiTwistTM, conti_citiTM, and ContiGO!TM brands for scooters. See Appendix C.
- 10. Opposer and its affiliates have sold belts, air damping systems, air springs, sensors and other components for use in connection with motorcycles in the United States.

- Opposer is a sponsor of Nick Sanders, a renowned motorcycle adventurer who is currently on his seventh world tour, "Parallel World," having completed the U.S. portion of the tour in late September 2008. See article, Appendix D, in which Mr. Sanders states his preference for Continental ContiRoadAttackTM tires and which includes a photograph of a motorcycle bearing Continental's signature yellow-orange color and the Continental mark and logo.
- 12. Opposer, its predecessors-in-interest, and affiliates have spent millions of dollars advertising, promoting and marketing its goods and services sold under the CONTI Marks throughout the United States and the world. For example, Opposer was an official sponsor of the FIFA World Cup 2006 and is an official sponsor of the FIFA World Cup 2010.
- By nature of the extensive use and its promotional and marketing activities, Opposer has developed a valuable reputation and acquired extensive goodwill in connection with the CONTI Marks.
- (Conti) ("CONTI MOTORS & Design") as a Applicant seeks to register 14. trademark in connection with goods identified as "Parts for internal combustion engines for motorcycles, namely, engine cylinders and cylinder heads, pistons, exhaust pipes, engine mufflers, connecting rods, carburetors, automatic and mechanical centrifugal speed regulators, electronic ignitions for motorcycles, motorcycle engine timing components, namely, cam sprockets and chains; electronic ignitions for motorcycle engines," in International Class 7 and "Land vehicles, namely, motorcycles and structural parts therefor, motorcycle engines; motorcycle frames, and motorcycle parts and accessories, namely, shock absorbing springs, handle bar throttles, clutches, brakes, brake discs, shock absorbers, suspension springs, fork bearings and races, gearboxes, gear shifts, handle bars and handle bar grips, fuel tanks and caps for fuel tanks, reservoir fuel tanks, fenders, saddles and saddle covers, motorcycle plastic trim components and fasteners, namely, plastic extruded decorative and protective trim, directional signals for motorcycles, rear view mirrors for motorcycles, horns for motorcycles, anti-theft alarms for motorcycles, luggage nets for motorcycles, motorcycle windscreens, kickstands for motorcycles, fitted and semi-fitted covers for motorcycles," in International Class 12, based upon an alleged use of the mark in interstate commerce and French Registration No. 003051797 under §§ 1(a) and 44(e) of the Lanham Act, as evinced by U.S. Application Serial No. 78/781,912 ("Applicant's Application"), filed December 28, 2005. Applicant alleges first dates of use as of February 2005 and, upon information an belief, French Registration No. 003051797 issued on September 11, 2000. The Description of the Mark reads: "The mark consists of an oval in the color yellow with the word "CONTI" in the color black and the word "MOTORS" in the color white." Applicant claims the colors yellow, white and black as a feature of the mark.
- 15. In a first Office Action dated June 29, 2006, the Examining Attorney appointed to prosecute U.S. Application Serial No. 78/781,912 refused registration of CONTI MOTORS & Design in

International Class 7 under Trademark Act § 2(d) because CONTI MOTORS & Design so resembled the marks in Opposer's U.S. Registration Nos. 652057, 2964324, 2936600, 2840812 and 2780178 as to be likely to cause confusion, to cause mistake or to deceive.

- 16. On September 7, 2006, Opposer opposed Applicant's Community Trade Mark ("CTM") Applications Nos. 004818167, 004803896, 004803615 and 004801882 for CONTI RACING PARTS & Design, CONTI RACING PARTS CRX & Design, CONTI RACING PARTS ORIGIN & Design and CONTI RACING PARTS CHR & Design, and on October 25, 2006, Opposer opposed Applicant's CTM Application No. 004818126 for CONTI MOTORS & Design (collectively "the European Trademark Oppositions"). See Appendix E.
- 17. In a second Office Action dated January 29, 2007, the Examining Attorney expanded the prior refusal to register CONTI MOTORS & Design under Trademark Act § 2(d) to all of the identified goods in all International Classes (not only International Class 7), and further refused registration because CONTI MOTORS & Design so resembled the marks in Opposer's U.S. Registration Nos. 2879106, 2781892 and 1152321 as to be likely to cause confusion, to cause mistake or to deceive.
- In a third Office Action dated September 11, 2007, the Examining Attorney maintained the refusal to register CONTI MOTORS & Design under Trademark Act § 2(d) and further refused registration because CONTI MOTORS & Design so resembled the marks in Opposer's U.S. Registration Nos. 1777543, 3002141, 2957380, 3133200, 2906811, 2906801, 2906800, 2984118, 2680341, 2406103, 2594967 and 2601767 as to be likely to cause confusion, to cause mistake or to deceive.
- 19. Despite Opposer's cited twenty registrations containing no limitation excluding its tires and land vehicle parts from use in connection with motorcycles, in its March 11, 2008 Office Action response to the Examiner's third Office Action, Applicant argued:

Applicant has amended the identification of goods in Classes 7 & 12 in order for those goods to be limited to motorcycles. As such, the parties' goods will not be viewed together by consumers, nor will there be any instances of commercial marketing to consumers showing similar goods or services, nor any instances where the cited goods are sold under the same store to consumers. The parties' goods are clearly not related in function and would never be purchased at the same time, nor would they ever be encountered by the relevant public under circumstances that will give rise to the mistaken belief that they originate from or in some way are associated with or sponsored by the same producer.

Applicant's goods are typically sold in specialized motorcycle dealerships and would not be sold or presented in the same store or venue as the cited registrant's automobile belts goods.

- At the time Applicant made its March 2008 arguments to the USPTO, it knew or should 20. have known at least from evidence that had been filed in the European Trademark Oppositions in March 2007, that Opposer makes and sells motorcycle tires, and that at least one of Opposer's CONTI belts -- a CONTI® SYCHROFORCE EXTREME™ belt -- is used in the BMW F 800 S and F 800 ST motorcycles (which are sold in the United States). Accordingly, Applicant's representations to the USPTO (1) that there would not be "any instances of commercial marketing to consumers showing similar goods or services, nor any instances where the cited goods are sold under the same store to consumers," (2) that the parties respective goods "would never be purchased at the same time, nor would they ever be encountered by the relevant public under circumstances that will give rise to the mistaken belief that they originate from or in some way are associated with or sponsored by the same producer," and (3) that Applicant's goods "would not be sold or presented in the same store or venue as the cited registrant's automobile belts goods" were at best, intentionally misleading, and at worst, demonstrably false. Notably, at the time Applicant made these arguments, Applicant's Application still included "motorcycles wheels and tires, namely, inner tubes for pneumatic tires, tubular tires, tubeless tires, wheel rims" within the description of goods in Class 12.
- 21. Opposer has found several internet websites, including but not limited to sites accessible at: <Bikebandit.com>,<newyorkmc.com>, <houseofmotorcycles.com>, <motorhelmets.com>, <ascycles.com>, and <oldbikebarn.com>, that carry both Opposer's tires, and Applicant's Ariete-branded motorcycle accessories, specifically grips and tank pads. See Appendix F.
- 22. On May 5, 2008, the Examining Attorney entered an Examiner's Amendment amending Applicant's goods and services, deleting from the description of goods in Class 12 "motorcycles wheels and tires, namely, inner tubes for pneumatic tires, tubular tires, tubeless tires, wheel rims."
- 23. On June 10, 2008, Applicant's Application was published in the June 10, 2008 issue of the *Official Gazette*. As published, the Application claims actual use in the United States of its mark in connection with "motorcycle frames, and motorcycle parts and accessories, namely, shock absorbing springs, handle bar throttles, clutches, brakes, brake discs, shock absorbers, suspension springs, fork bearings and races, gearboxes, gear shifts, handle bars and handle bar grips, fuel tanks and caps for fuel tanks, reservoir fuel tanks, fenders, saddles and saddle covers, motorcycle plastic trim components and fasteners, namely, plastic extruded decorative and protective trim, directional signals for motorcycles, rear view mirrors for motorcycles, horns for motorcycles, anti-theft alarms for motorcycles, luggage nets for motorcycles, motorcycle windscreens, kickstands for motorcycles, fitted and semi-fitted covers for motorcycles." ("Applicant's Listed Use-Based Goods")

- 24. The specimen filed by Applicant for International Class 7 does not show the mark in the colors sought to be registered, despite Applicant's arguments for registration relying, in part, upon the stylization and color of its mark as a basis for differentiation from Opposer's many registrations.
- 25. On July 9, 2008, Opposer timely filed a First 90-Day Request for Extension of Time to Oppose for Good Cause, which was granted by the USPTO Trademark Trial and Appeal Board the same day.
- 26. Opposer's use predates Applicant's asserted dates of use and, accordingly, Opposer's rights are senior to Applicant's rights.
- 27. CONTI MOTORS & Design so resembles the CONTI Marks as to be likely to cause confusion, mistake or deception as to the source of Applicant's goods, resulting in damage to Opposer and its reputation.
- Applicant's goods are similar to Opposer's goods, such that the public is likely to be confused or deceived or will erroneously assume that Applicant's goods are in some way connected to, sponsored by or affiliated with Opposer, resulting in damage to Opposer and its reputation.
- 29. Given the similarities that exist between CONTI MOTORS & Design and the CONTI Marks, and given that the parties' goods are related and likely to be encountered by the same customers, Opposer's customers and the general public are likely to be confused, mistaken and/or deceived as to the origin and sponsorship of goods offered under Applicant's mark and misled into believing that such goods are provided by, or are in some other way directly or indirectly associated or affiliated with, Opposer, resulting in damage to Opposer and its reputation.
- 30. Opposer has no control over the nature and quality of the goods on which Applicant uses CONTI MOTORS & Design. In the event of false association with Opposer, any defects, objections or faults found with any goods offered under CONTI MOTORS & Design could inflict serious injury upon Opposer and its reputation.
- 31. If Applicant's Application matures to registration, Applicant will acquire the *prima facie* exclusive right to use the mark CONTI MOTORS & Design on and in connection with the goods set forth in such registration throughout the United States. This will damage Opposer in that there will be a likelihood of confusion and, in all likelihood, actual confusion by and among consumers and in the trade as to the true source or origin of the goods provided by Applicant in connection with CONTI MOTORS & Design. Such confusion will inevitably damage Opposer and result in irreparable harm to Opposer.

32. Opposer's CONTI Marks have become distinctive and famous within the meaning of 15 U.S.C. §1052(d) prior to Applicant's asserted dates of first use.

33. Applicant's use of CONTI MOTORS & Design in connection with Applicant's goods is

likely to cause dilution of Opposer's famous CONTI Marks.

34. In the course of overcoming repeated rejections by the Examining Attorney of the instant

application, Applicant made statements and characterizations that were false or misleading.

On information and belief, based at least upon the deficient specimen provided to the

United States Patent and Trademark Office, Applicant has not actually used in commerce CONTI

MOTORS & Design as sought to be registered in the United States in connection with all of Applicant's

Listed Use-Based Goods.

36. Applicant's misleading statements and/or non-use of the CONTI MOTORS & Design

mark as sought to be registered in the United States in connection with all of Applicant's Listed Use-

Based Goods constitute fraud on the USPTO.

WHEREFORE, Opposer requests that registration of U.S. Application Serial No. 78/781,912 for

CONTI MOTORS & Design be refused and that this Opposition be sustained in favor of Opposer.

The Commissioner is hereby authorized at any time to charge any fees required, or credit any

overpayment, to Deposit Account No. 18-0350.

Respectfully submitted,

RatherPrestia

CONTINENTAL AKTIENGESELLSCHAFT (FED REP GERMANY JOINT STOCK COMPANY) VAHRENWALDER STRASSE 9 D-30165 HANNOVER FED REP GERMANY

FOR: BRAKE FLUID, IN CLASS 1 (U.S. CLS: 1, 5, 6, 10, 26 AND 46).

FOR: AXLES AND AXLE MODULES FOR MACHINES; WATER PUMPS FOR AUTOMOBILES, IN CLASS 7 (U.S. CLS. 13, 19, 21, 23, 31, 34 AND 35).

FOR: ELECTRIC OR ELECTRONIC SENSORS FOR VEHICLES; CONTROL AND REGULATING SYSTEMS COMPRISED OF SPEED SENSORS, SEN-SORS FOR DETECTING PROXIMITY FROM OB-JECTS, PRESSURE SENSORS, ACCELERATION SENSORS, ROTATIONAL SPEED SENSORS, STEER-ING WHEEL ANGLE SENSORS, YAW RATE SENSORS, ROLLOVER SENSORS, GRAVITY SENSORS, HALL-EFFECT SENSORS, VEHICLE HEIGHT SEN-SORS, TRANSMITTERS, RECEIVERS, AND PRO-CESSORS COMPRISED OF COMPUTER HARDWARE AND SOFTWARE, FOR IMPROVING DRIVING SAFETY, DIRECTIONAL STABILITY AND FOR RIDING COMFORT AND NOISE CON-TROL, PARTS AND COMPONENTS THEREOF; ELECTRIC AND ELECTRONIC MEASURING, CON-TROL AND REGULATING DEVICES, NAMELY; SPEED SENSORS, SPEED GAUGES, MECHANICAL AND ELECTRONIC GOVERNORS, SENSORS FOR DETECTING PROXIMITY FROM OBJECTS, PRES-SURE SENSORS, ACCELERATION SENSORS, RO-TATIONAL SPEED SENSORS, STEERING WHEEL ANGLE SENSORS, YAW RATE SENSORS, ROLL-OVER SENSORS, GRAVITY SENSORS, HALL-EF-FECT SENSORS AND VEHICLE-TO-VEHICLE DISTANCE MONITORING SYSTEMS FOR INSTAL-LATION IN MOTOR VEHICLES; ELECTRONIC BRAKING CONTROL AND ACTIVATION SYS-

TEMS COMPRISED OF ELECTRONIC REGULATION AND CONTROL CIRCUITS AND LOOPS FOR BRAKE AND BRAKE ACTIVATION SYSTEMS; ACTUATORS; BRAKE FORCE SENSORS; BRAKE PRESSURE REGULATORS; SENSORS FOR STEERING SYSTEMS COMPRISED OF STEER-ANGLE SENSORS AND STEERING ACTUATORS FOR POWER STEERING AND ELECTROMECHANICAL AND ELECTROHYDRAULIC STEERING SYSTEMS AND THEIR PARTS AND COMPONENTS THERE-OF; WHEEL MONITORING SYSTEMS, NAMELY, TIRE PRESSURE GAUGES AND WHEEL SPEED GAUGES, IN CLASS 9 (U.S. CLS. 21, 23, 26, 36 AND 38).

FOR: VEHICLE STRUCTURAL PARTS, NAMELY BRAKE SYSTEMS FOR VEHICLES AND THEIR PARTS, NAMELY CYLINDERS, BRAKE PADS, HOSES, HYDRAULIC, PNEUMATIC AND ELEC-TRIC BOOSTERS, TANKS, VALVES; MECHANICAL, ELECTRIC AND HYDRAULIC SETTING DEVICES. NAMELY DAMPERS, BRAKE CALIPERS, BRAKE DRUMS, FOUNDATION BRAKE CYLINDERS, BRAKE BLOCKS, BRAKE DISCS, BRAKE HOSES, MASTER CYLINDERS, BRAKE FORCE BOOSTERS, ADJUSTABLE BRAKE PEDALS, ELECTRIC MO-TORS AND PUMPS; STEERING UNITS FOR LAND VEHICLES AND PARTS THEREOF; WHEELS FIT-TED WITH TIRES AND SYSTEMS FOR FITTING WHEELS WITH TIRES; WHEEL MONITORING AND DEFLATION SYSTEMS; CONTROLLED AND UNCONTROLLED CHASSIS SYSTEMS COM-PRISED OF AUTOMOBILE SUSPENSION SYSTEMS AND PARTS THEREOF, NAMELY AIR SPRINGS AND GAS SPRINGS, AIR SUPPLY UNITS, ACTIVE AND PASSIVE, CONTROLLED AND UNCONTROL-LED SHOCK ABSORBERS AND SPRING STRUTS; CONTROLLED ADJUSTMENT DEVICES FOR VE-HICLE COMPONENTS SUCH AS THROTTLE VALVES, CAM SHAFTS AND PARTS THEREOF, IN CLASS 12 (U.S. CLS. 19, 21, 23, 31, 35 AND 44).

FOR: TEXT BOOKS AND PERIODICALS IN THE FIELD OF GENERAL AUTOMOTIVE INFORMATION AND AUTOMOTIVE REPAIR, REPAIR AND/OR SERVICE MANUALS FOR AUTOMOTIVE PARTS, IN CLASS 16 (U.S. CLS. 2, 5, 22, 23, 29, 37, 38 AND 50).

FOR: MARKETING CONSULTING REGARDING VEHICLE PARTS; PROFESSIONAL CONSULTING IN THE FIELD OF BUSINESS AND MARKETING; PROCUREMENT OF CAR PARTS FOR CAR MANUFACTURERS, CAR DEALERS, GARAGES AND END USERS; ORGANIZATION OF TRADE FAIRS AND EXHIBITIONS AND OTHER PUBLICITY EVENTS FOR COMMERCIAL OR ADVERTISING PURPOSES; LICENSING OF SERVICES RELATED TO CUSTOM ASSEMBLY, TESTING AND REPAIR OF CAR PARTS, IN CLASS 35 (U.S. CLS. 100, 101 AND 102).

FOR: TRAINING SERVICES IN THE FIELD OF AUTOMÖTIVE REPAIR, IN CLASS 41 (U.S. CLS. 100, 101 AND 107). FOR: DEVELOPING AND CONDUCTING TECHNICAL PROJECT STUDIES PERTAINING TO THE FIELD OF ASSEMBLY, TESTING AND REPAIR OF CAR PARTS, AND CUSTOM ASSEMBLY; RESEARCH, DESIGN AND TESTING FOR NEW PRODUCT DEVELOPMENT IN THE AREA OF SENSOR, CONTROL AND REGULATIONS SYSTEMS AND RELATED PROCESSORS FOR IMPROVING DRIVING SAFETY, DIRECTIONAL STABILITY, RIDING COMFORT AND NOISE CONTROL; TECHNOLOGICAL CONSULTING IN THE FIELD OF THE AUTOMOTIVE INDUSTRY AND SURVEYING, IN CLASS 42 (U.S. CLS. 100 AND 101).

PRIORITY DATE OF 9-9-2003 IS CLAIMED.

OWNER OF INTERNATIONAL REGISTRATION 0837424 DATED 11-6-2003, EXPIRES 11-6-2013.

OWNER OF U.S. REG. NOS. 621,319 AND 622,300. SER. NO. 79-006,831, FILED 11-6-2003.

APPENDIX B

CONTINENTAL TIRE NORTH AMERICA, INC.

Continental Tire North America Cruises Through Tire Design With Z Corp. 3D Printing Solution

- Continental Corp. Largest tire maker in Germany and the fourth largest in the world
- Challenge Quickly generating multiple tread samples for timely product development decisions
- Solution Switching to the ZPrinter* 310 System to accelerate the production of tread samples, creating additional time within the development cycle for additional design work
- Results Continental's North American development division is saving time and money in creating prototypes, and is supporting other lines of business, including the sales force

"As vivid as a 30 CAD model is, it just doesn't tell you as much as a physical model rain about what will come of the production line"

-- Mati Yanb Tur Össense Contreryal Bee

If you drive, ride, or bike, chances are good you are rolling on "Conti" tires. Continental Tire North America, Inc. (CTNA) is a group of the Germany-based Continental Corp., which is the number-one tire maker in its home country, number two in Europe, and number four worldwide. The products are sold under a host of different brands, including Continental, General Tire and Uniroyal in Europe.

At first glance, tires are just tires, but a surprising amount of thought goes into every line of Continentals. What kind of vehicle is it going under? What is the focus? Stopping power? Fuel economy? Performance? And of course, what should the tread look like?

Tread design is where the rubber meets the road in tire making. It is equal parts engineering and aesthetics, and designers need prototypes on demand to drive good group decisions. Early in development, tire designers take input from marketers and engineers who separately lay out requirements for each new line of tires. Designers synthesize the input and come: up with dozens of potential tread designs. Every zig, zag, groove and gap has a specific purpose and had better have eve appeal. "Looks aren't everything, but everyone wants a cool-looking fire," says Matt Lamb, a Continental tire designer based in Charlotte, N.C.

Challenge

Quickly Generating Numerous Tread Samples

from dezens of initial concept drawing,

designers develop half a dozen into full-fledged three-dimensional computer aided design (CAD) models. Although thes may seem like simple things, they're very complex to design. They're a torus shape—that is, they have a curveit dicomference and curves in the cross-section. To simplify and accelerate design work. Confinental developed proprietary modeling software called TireWizard that operates on top of its 3D CAD software.

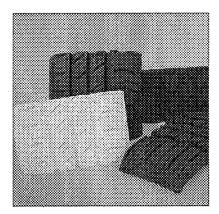

Seven years ago, Continental recognized the value of turning the CAD moders on their computer screens into rapid physical prototypes that employees could hold in their hands while evaluating design alternatives. "As vivid as a 3D CAD model is, it just doesn't tell you as much as a physical model can about what will come off the production line," says Lamb.

Salution

3D Printing

Continental invested at that time in a Fused Deposition Modeling (FDM) 3D printer. As advertised, if created 3D prototypes. Whether they were capid prototypes was open to interpretation. Every printing jubitook 50 hours or more.

Fristrated with the slow printing action, Contine tal decommissioned the machine in early 2004 and evaluated allematives for appraising. Speed, of course, was a main consideration. Continental the designers needed a fast machine that could chum out prototypes without a lot of wasted lime and offort. After months of evaluation, Continental representatives determined that

The Continental ContiProContact (left) was recently introduced in 22 sizes with advancements in wet traction and handling. The ZPrinter 310 provided the engineers with a hands-on evaluation of the tread design before investing in the expense of molds and tire building.

"We're making more money by creating prototypes for our sales force, giving them something concrete and convincing to show major auto companies and private-label customers"

-- Matt Lame Tire Designer Continental Tire

the ZPrinter 310 System from Z Corporation was the fastest 3D printer on the market, as well as the most affordable to purchase, operate and maintain.

Results

Speed And Efficiency Up, Cost Down

Continental is delighted with its investment. The ZPrinter 310 System prints 10 x 5-inch (254 x 127 mm) tread samples in five hours versus the 50 hours the FDM machine consumed. The time savings becomes exponential when Continental opts to print three different samples at once, which was impractical with the FDM machine.

In addition to being faster, the ZPrinter 310 System operates at less than half the cost of the company's decommissioned printer. A tread sample costs \$100 in materials versus upwards of \$200 for a sample from the FDM printer.

Another dramatic difference between the two devices is the ZPrinter 310's surprisingly low maintenance requirements. To create a prototype, the FDM device squirted a glue-like substance from a small nozzle that would regularly clog. Even worse, it would then harden. Lamb and his colleagues had to regularly dismantle,

clean, reassemble and recalibrate the machine – a task that was clearly beyond the scope of routine maintenance.

The ZPrinter 310's speed and negligible maintenance requirements have created time for Lamb's division to accomplish more work in the same amount of time, including printing models for a commercial tire group in Illinois that remotely downloads 3D files to the ZPrinter in Charlotte.

"We're extremely satisfied with the ZPrinter because it's fast," Lamb said. "We spend more time designing and less time making prototypes and fixing machines we never expected to break. We now have more flexibility in the design cycle to develop, discuss, debate and refine tread designs that will ultimately best satisfy our customers.

in addition to our purchase and material savings, we're making more money by creating prototypes for our sales force, giving them something concrete and convincing to show major auto companies and private label customers. This process was just too much work in the past, but it's a great advantage for us since our competitors have only sketches to show. Thanks to the ZPrinter, everything here at Conti is rolling along smoothly."

Contrarial is an Official Sporasor of the

Nick Sanders has motorcycled around the world six times and is presently preparing for his seventh world tour, 'Parallel World' - on Continental Tyres.

http://www.nicksander

Nick Sanders is one of Britain's great adventurers, having circumnavigated the globe no fewer than six times by motorcycle. But where Nick differs from the Ewans and Charleys of this world (also lovers of Conti rubber), is that his expeditions are no holiday.

inappropriate (or so you would expect - Nick thinks it's perfect) Yamaha R1. Nick's 2005 record for riding over 19,000 miles around the world stands at just 19 days and three hours. And this was done aboard a wholly

Continental Motorcycle Tyres -Nick Sanders - Parallel World, the toughest motorcycle journey around the world

100 days .... with ContiRoad Attack his preferred choice! "When I rode around in April, Nick sets off on his most extreme expedition yet. 'Parallel World' will see our intrepid adventurer cover around 55,000 miles - up and down and all around the globe, the longest possible way, through 49 countries in just over bad on an R1! In my view and with my experience, there is simply no better the world in 19 days I was getting over 7000 miles out of the rear tyre, not tyre than the ContiRoadAttack."

55,000 Miles, 45 Countries, 120 Days!

# Nick's blog: Final run in (88)

Its absolutely chucking it down with rain at the top of the Appalachian Mountains. I started riding at 5am and finished at 11pm. The spray was so thick I could only see the red lights of the trucks. For a while I thought that this was too tricky but slowly adjusted to the conditions and carried on. I need to get to the Port of Newark by noon (Friday) to get the bike through customs and on board a boat bound for Southampton... ... Read more >

## **Ariete MX Professional Grip**

Price: \$20.99

213805

Keywords: Comfort Gift GSbikes

This grip has been designed following professional riders' needs to reduce riding stress and to avoid

blisters on the palm of the hands. The anatomical design, together with the use of two different materials for flange and grip, allow a perfect adjustment of the rider's hand, giving enhanced comfort and safety.

Remember, A&S only ships to the US and Canada
